MYNAH Site ID:

Licensed Product Description

Product:	Description:	License Quantity *:
CP/IP	Modbus TCP/IP Driver for DeltaV VIM and EIOC	2

*One software license is required for each installation of the software distribution on a DeltaV serial card, Virtual IO Module, or Ethernet IO Card. It is the responsibility of the Licensee to ensure that the number of software installs does not exceed the License Quantity. Use of MYNAH Software distribution without an adequate Licensed Quantity is in violation of the MYNAH Software License Agreement.

The Licensee is entitled to support services as described below through 90 days from the shipment date of this software license. This support includes:

1. Technical support is provided Monday through Friday between the hours of 8:00 a.m. to 5:00 p.m. Central Time. Support will be limited to the installation and configuration of the MYNAH software driver, Systems integration and application support is available from MYNAH but not included in these support services.
2. All new major and minor releases of MYNAH Proprietary Software that are released by MYNAH during the 90 day support term, maintenance upgrades and fixes, and hardware replacement modules (subject to need, as determined by MYNAH in its sole discretion).
